

Maykon Willian Rodrigues da Silva

Front-End / Full-Stack Developer

Brazil | +55 (47) 98856-0032 | maykonsilva60@gmail.com

Profile

Driven by curiosity for technology since an early age, I wrote my first lines of code at 17 and quickly became fascinated with building solutions through programming. Over time, I explored modern tools such as React, TypeScript, and GraphQL in personal projects, which strengthened my technical foundation. In 2020, I began my professional journey, progressing from an intern to a junior developer, always seeking to expand my skills and embrace new technologies to deliver efficient and scalable solutions.

Professional Experience

Intern Developer – ACCT Global by Quality, São Paulo (*Dec 2021 – Jun 2022*)

Junior Developer – ACCT Global by Quality, São Paulo (*Jun 2022 – Dec 2023*)

- Developed e-commerce applications, customizations, and new features using **JavaScript, React, Gatsby, Next.js, TypeScript, jQuery, VTEX IO, Jamstack, and GraphQL**.
- Defined technical solutions for customizations and client-requested features.
- Supported the squad with technical clarifications to achieve sprint goals.
- Performed **code reviews**, managed version releases, and deployed new features into production.

IT technician – Bom Jesus IELUSC, Joinville SC (*Aug 2024 – Present*)

- Provide technical support to teachers and students, ensuring proper functioning of classroom and lab equipment.
 - Perform hardware and software maintenance on computers and peripherals.
 - Manage and troubleshoot network infrastructure, including switches, cabling, and connectivity issues.
 - Assist with system configurations, updates, and resolving technical incidents.
 - Collaborate with staff to ensure a stable and efficient IT environment for academic activities.
-

Education

Systems Analysis and Development – Univille (2021 – Present)

Certifications

- FRONT-END Developer – Danki Code
 - VTEX IO Developer – VTEX
 - AWS Cloud Foundations – AWS Academy Graduate
 - Programming Essentials in Python – OpenEDG Python Institute
-

Skills

- **Languages & Frameworks:** JavaScript, TypeScript, React.js, Angular, GraphQL, Node.js, jQuery, Next.js, Docker, MySQL, MongoDB, Firebase, PostgreSQL, Lua, Ruby on Rails, Python, VTEX IO, HTML, CSS & Bootstrap
 - **Practices:** Code Review, Version Control, Agile/Scrum
 - **Specialization:** E-commerce Development, Custom Features, Game & CI/CD
-

Languages

- Portuguese: Native
- English: advanced
- Espanish: Intermediate
